

GREENBACKER RENEWABLE ENERGY CORPORATION AND HANERGY HOLDINGS AMERICA, INC. SIGN MEMORANDUM OF UNDERSTANDING FOR GREENBACKER TO PURCHASE UP TO 126MW OF SOLAR PROJECTS IN THE UNITED STATES

Greenbacker Renewable Energy Corp. ("Greenbacker") announced today that they have signed a Memorandum of Understanding whereby Greenbacker will be offered the opportunity to finance up to 126MW of solar energy projects to be developed by Hanergy Holdings America, Inc. ("Hanergy"). "We are thrilled to have the opportunity to work with a Hanergy, a global leader in the renewable energy space, to finance this portfolio of high quality solar projects" said Robert Sher, Co-Founder and Director of Business Development of Greenbacker Group. "In working together with Greenbacker, we believe that we will be able to provide next generation solar technology to each and every corner of the United States", said Mr. Wu Yi, Chairman & CEO of Hanergy Holdings America, Inc.

A key advantage of this relationship for Hanergy is the opportunity to foster a lasting relationship with a long-term source of capital, which should allow the company to offer lower cost solar power to its current and prospective customers. Greenbacker will benefit from access to a meaningful pipeline of select solar projects which it may choose to finance. The parties believe that this strategic arrangement will promote a more efficient process for getting renewable energy projects from development to service and may lead to cost savings and increased deal flows for both organizations. Terms were not disclosed.

ABOUT HANERGY
